Jeffrey Yim, CFA, ASA — Buy-Side Multi-Asset Execution Trader (SFC Type 1/4/9)

Email: yimkihimjeffrey@gmail.com **Phone:** (852) 98531683 **LinkedIn:** hk.linkedin.com/in/yimkihimjeffrey **Github:** jeffreyyimkihim.github.io

PROFILE

Buy-side execution trader with 10 years in asset management, including 5+ years on buy-side trading desks (PIMCO, Fosun). Executes credit, rates, FX, equity and convertible bond trades across Asia, Europe and US sessions; drives best execution through broker/venue selection and performance reviews; builds Python/VBA/SQL/Bloomberg automation for execution, index rebalancing and market monitoring. CFA charterholder; Associate of the Society of Actuaries; SFC Type 1/4/9 licensed.

EXPERIENCE

Fosun Asset Management — Senior Trader (Investment Director), Jan 2026 – Present

- Execute credit, rates, FX and equity trades across day and night desks, covering Asia/Europe/US IG/HY credit and Asian convertible bonds (CB).
- Provide trade ideas and market colour on holdings to research analysts and portfolio managers.
- Structure and monitor convertible bond and equity derivative strategies (e.g. bear put spreads).
- Drive best execution through broker and venue selection, and run periodic broker performance reviews.
- Build cross-platform automation (VBA/Python/Bloomberg/SQL) supporting agency execution and index-rebalancing workflows.
- Research new instruments (thematic ETFs, covered bonds, perpetual futures) and propose new revenue ideas for the team (e.g. ETF creation/redemption arbitrage).
- Manage treasury and FX futures/forwards roll book; recommend optimal tenors for establishing positions.

PIMCO — Portfolio Associate, Mar 2021 – Dec 2025

- Junior multi-asset trader on the trading desk, executing credit, rates, EM and macro trades for portfolio managers.
- Analyse credit and macro research; recommend trade ideas to traders and portfolio managers.
- Monitor portfolio positioning; assess liquidity and catalysts to support re-rating recommendations.
- Set up trading capabilities with new counterparties and products in line with current regulatory and compliance requirements.
- Build automation (VBA/Python/Bloomberg/SQL) for market monitors and risk reports.

Capabilities

- Credit: fundamental long/short, credit index and options, macro credit, new issuance, and systematic credit trading.
- Rates: major bond, swap, and futures markets, and include yield curve and relative value strategies, as well as short-end rates and inflation strategies.

J.P. Morgan Asset Management (JPMAM) — Risk Associate, Oct 2016 – Feb 2021

- Oversaw investment, liquidity and counterparty risk across fund positions.
- Conducted fundamental and technical analysis: time-series, cross-asset class correlations, sensitivity and stress testing.
- Produced ad-hoc equity/credit/market thematic research for portfolio and risk management teams.
- Champion of "The Completer" regional award in J.P. Morgan's Global Hackathon 2018.
- Initiated/extended JPMAM's liquidity risk model to selected external funds.

J.P. Morgan Securities — Global Markets Summer Analyst, 2016

- Completed product training across Cash Equities, GFICC, Rates, Exotics and Hybrids.
- Shadowed market making, market commentary updates and trade idea origination.
- 1st place in trading simulation out of 200+ analysts' cohort.
